ALTEC LANSING

620B
SPEAKER CABINET

DESCRIPTION

The ALTEC 620B Speaker Cabinet is a smartly styled, furniture-type, bass reflex enclosure designed for front mounting a 15" low-frequency or two-way coaxial loudspeaker. The 620B provides correct baffling and mounting for quality monitor installations.

The cabinet's appearance is enhanced by an appealing, natural, hand-rubbed oil finish on rift-cut oak, and an attractive, snap-on, removable grille assembly.
